

V MohanKumar

Bangalore, Karnataka, India

+91 7904608866 | mohanvkumar8866@gmail.com | LinkedIn | GitHub | LeetCode | Portfolio

Profile

Computer Science undergraduate with strong expertise in **Data Structures, Algorithms, and Software Development**. Proficient in **C++**, **SQL**, Python, Java and REST API development. Experienced in building scalable web applications using **Django** and solving real-world problems through efficient coding practices. Solved **210+ LeetCode problems**, demonstrating strong problem-solving and analytical skills. Familiar with **Object-Oriented Programming, Operating Systems, and Computer Networks** and System Design.

Education

BE in Computer Science and Engineering SJB Institute of Technology, Bangalore	2023–2027 CGPA: 8.76
Class XII – Pre University VBR Pre University College, Bangalore	2023 93.8%
Class X – Secondary School Unique International School, Malur	2021 88.64%

Technical Skills

- **Languages:** C, C++, Java, Python
- **Web:** HTML, CSS, JavaScript, Django, REST APIs
- **Database:** MySQL, SQL
- **Tools:** Git, GitHub, VS Code, Jupyter Notebook
- **Data Analysis:** Pandas, NumPy, Matplotlib, Seaborn
- **Machine Learning:** Scikit-learn, TensorFlow
- **Core:** Data Structures, OOP, Operating Systems, Computer Networks

Projects

- | | |
|---|------|
| Crime Prediction System — Github | 2026 |
| <ul style="list-style-type: none">• Developed a machine learning system to predict crime patterns and identify trends from historical crime datasets.• Tech Stack: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Jupyter Notebook.• Applied exploratory data analysis, feature engineering, and Logistic Regression to generate predictive insights and visual reports. | |
| Parking Management System — Github | 2025 |
| <ul style="list-style-type: none">• Built a web-based parking management platform for real-time parking slot booking and availability monitoring.• Tech Stack: Django, Django REST Framework, SQLite, HTML, CSS, JavaScript.• Implemented user authentication, slot allocation, and real-time parking availability tracking with dynamic dashboard. | |
| AI Virtual Desktop Assistant — Github | 2024 |
| <ul style="list-style-type: none">• Developed an AI-powered desktop assistant capable of automating system operations through voice commands.• Tech Stack: Python, SpeechRecognition, Pyttsx3, PyAutoGUI, Webbrowser, OS libraries.• Enabled voice-based application control, web search, and desktop system automation. | |

Achievements & Activities

- Solved **210+ LeetCode problems** focusing on Data Structures and Algorithms.
- Participant **Cognizant Technoverse Hackathon 2026**.
- Participant **Solaris-X Hackathon 2026**.(worked on real-world problem-solving and team collaboration)
- Winner of **Kabaddi Finals – Hostel Fest**.

Certifications

- Software Engineering Intern – HackerRank(2026)
- Intro to Machine Learning – Kaggle (2025)
- Intro to Deep Learning – Kaggle (2025)
- Data Science Internship – SkillCraft Technology (2025)
- Python (Basic) – HackerRank
- Java (Basic) – HackerRank
